Dated: 17/12/18

## OFFICE ORDER

Vide this office order no RSLDC/MIS/2018-19/2581 dated 06.06.18, directions were issued for the installation of IP camera based video monitoring and surveillance system at all skill development centers run under all schemes of RSLDC.

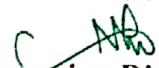

It was further felt that AEBAS is not adequately serving the purpose of ascertaining attendance throughout the training day, therefore IP cameras based face recognition monitoring system is proposed to be installed at all SDCs across the state for monitoring the activities in SDCs from any location at any point of time and also in tracking the attendance (entry and exit time) of the trainees on daily basis by using his physical presence through facial recognition.

In compliance to the directions of Hon'ble Chief Minister for the monitoring of these centers and to get ground level feedback, enabling redressals, interventions and corrections IP camera based face recognition monitoring system is to be installed at all skill development centers. The system envisaged should have the following functionalities with technical specification as enclosed:

1. Wi-Fi IP camera, 2MP with IR sensor with Mic and Pan and Tilt (IP cameras in all Classrooms, Labs & Hostel if residential).
2. Facial recognition based attendance along with streaming and data storage on cloud for 6 months.
3. Integration of IP cameras with Livelihoods Portal of GoR.  
(<http://livelihoods.rajasthan.gov.in>)
4. Internet connectivity compatible with IP camera for effective video streaming.

BSNL a public sector company is already engaged in providing above type of solution to different users. The solution proposed by BSNL was recently presented before the officials of RSLDC. The solution suggested by BSNL fulfills all the requirements envisaged for monitoring of SDCs. BSNL a Public Sector Company of GOI can be trusted for its policies for data secrecy and transparency.

All the training partners/project implementing agencies shall ensure to install IP camera based face recognition monitoring system at all SDCs with above mentioned identical functionalities from any vender of their choice within one month from the date of issue of this order, however integration of IP camera with Livelihoods Portal will be sole responsibility of training partners and they will provide all user credentials required for the access of system to RSLDC. The cost shall be borne by TP/PIA themselves for IP camera installation and integration with Livelihoods Portal.

  
Managing Director

S.No.: RSLDC/MIS/2018-19/ 13203 - 13210

Dated: 17/12/18

### Copy for information and necessary action:
